

Environmental Report:

I would like to say thank you to several of our wonderful neighbors:

I would like to thank Hank and Linda Mycko for donating the wreaths for the entrance for the holiday season. They look really nice.

Thanks to John Fortuna, Mark Boivin, and Mark Starkey for installing the "No Wake Surfing Buoys". This should help with our shoreline and boats in the slips.

Thanks to Warren Preston and John Fortuna for installing a martin house in the common area. I'm sure this will help with bugs around the common area.

Thanks to Teresa and David Jescovitch, John and Karen Fortuna and Mark Starkey for updating our front entrance. It looks beautiful!!!

We will be replacing the volley ball net as soon as we can.

Every 3 years an inspection needs to take place of our drain field, as required by the county, and done by an engineer. That was required this year and once again we pass inspection.

We have had several construction approvals this year. If you are planning a project please let me know and I will get you our Construction Application and Agreement Form to complete. It is very easy to complete and I can help you with the form.

As a reminder if you are the last in the common area to please close the umbrellas and make sure the gate is locked.

I ask that you remember to please not park on the grass with your vehicles. Please use the parking lot. It will help to reduce ruts and increase grass growth.

Looking forward to hopefully seeing you all this summer.

George Tsoukleris
