

FIFTH MEETING (12-15-01)

Our meeting was held on 12-15 at Don's house

Our first topic was the Willis's boat house. The board has had several complaints. However it is ok according to site plans and has been approved by George O'Connell with Dominion Power. We discussed that we needed past minutes from Jana. She will be up in December and will bring her minutes.

We have requested a bill(breakdown) from Wally Hayden for everything that is done. We are having problems with the original posts. George has met with original builder and at that time the posts were approved by the County. Wally did include this work in his original estimate.

Wally stated that the 2x4 weren't driven in far enough and that they hit rock. George is getting with Wally and he is to come back to try to fix the problem. If the post can't be driven in any further, they can be removed. The original builder stated he would come back out, but of course he will charge us. Hopefully this can be done before boat season.

Hayden still to check with Spots. County on Rental. Even if we can change the by-laws the homeowners will probably be grandfathered according to an attorney, but at the present time we are not sure of Spots. Rules.
